Next View Software Announces Agreement with G3 Enterprises

Innovative 3PL provider implements state of the art warehouse management system (WMS) and real-time visualization and collaboration solution from Next View Software

Orange, CA – Next View Software announced today that it has implemented its warehouse management system (WMS) and Next View Live™, its real-time visualization and collaboration solution, with G3 Enterprises.

“We are delighted that G3 Enterprises has implemented Next View Software solutions. Our customers continue to seek innovative and cost effective ways to improve their supply chain operations and productivity. G3 Enterprises is clearly a leader in the 3PL market with these solutions,” said Steve Simmerman, Business Development leader for Next View Software, Inc.

“Our decision to implement Next View WMS and Next View Live reflect G3’s desire to provide our customers with innovative value added supply chain services”, said Robert Lubeck, CEO of G3 Enterprises. “As a growing 3PL provider in California and Chicago, Next View enables us to offer our customers a total logistics solution which includes warehousing, transportation and import/export solutions. Next View has improved our ability to manage integral components of our customers supply chains reliably, seamlessly and cost-effectively.”

Next View Software is revolutionizing the way that supply chain practitioners use technology to continually improve their supply chain management and productivity. Next View’s standard Warehouse and Labor Management & Productivity solutions provide customers with powerful management and analytical tools. Next View Live provides unmatched, leading edge visibility across the entire supply chain. “G3 Enterprises implementation of Next View Live will allow them to collaborate with customers anywhere at any time with real-time visualization. We believe this is the future of supply chain software solutions and we are pleased to be working with G3 Enterprises,” continued Simmerman.
