

MAPSYS Systems and Solutions

presents

Labor Management & Workforce Productivity Software Review

For distribution center operations executives and corresponding IT support personnel: Join us for a review of the latest in **Labor Management & Workforce Productivity Software**. Learn how an on-demand productivity tracking and labor reporting system can improve your operation. Quick to implement on "the cloud", this application has emerged as a vital component of any distribution center's operations.

Wednesday, August 18

2:00 pm – 3:30 pm

COSI "Center of Science and Industry"

333 W Broad Street, Columbus, OH

Beverages and other refreshments included

- **You and your family are our COSI guests: general admission all day**
- **You and your family are our guests at the 3:45 pm Titanic Exhibit, following the Labor Management System Review**
- **Parking voucher included**

Bring your family to enjoy COSI while you learn of the new software features, then experience the most visited exhibition in COSI's history with them as a guest of MAPSYS. Set sail again for a magnificent second voyage on the Titanic, featuring 100's of artifacts - 23 making their world debut at COSI. Explore stunning room and ship design recreations, see hundreds of treasures, and interact with costumed characters in authentic roles from that fateful night.

It's free for you and your family! REGISTER TODAY!

Go to the following site and select "Events"

<http://www.mapsysinc.com/>

We look forward to seeing you there!

For directions, and additional information of TITANIC, The Artifact Exhibition, go to their Web site at: <http://www.cosi.org/visitors/exhibits/titanic/>

Questions: Call Chris Connor, MAPSYS event coordinator: (614) 832-9874
